January 27	EPAASM 816 Monthly Meeting
February 3	NO SEMINAR
February 10	Joshua Denny, Abt Lab <i>"Standard mouse diets lead to differences in colitis severity"</i>
February 17	Chang-Yu Chang, Ph.D., Wood Lab <i>"Exploring the Emergent Properties of Microbial Communities and Symbiosis in the Eco-Evo Context"</i>
February 24	EPAASM 817 Monthly Meeting
March 3	Harris H. Wang, Ph.D. Columbia University, Vagelos College of Physicians and Surgeons <i>"Spatial metagenomics and in situ editing of the gut microbiome"</i>
March 10	Yuri Silva, Santiago-Frangos Lab <i>"Visualizing IHF-mediated CRISPR adaptation and exploring eukaryotic homologues of anti-phage systems"</i> Shahi, Ifrah, PhD, St.Geme Lab <i>"Type IV Pili Dynamics in Kingella kingae"</i>
March 17	Laura Anzaldi Mike, Ph.D. University of Pittsburgh, ID Division <i>"Unmasking Klebsiella control of exopolysaccharides"</i>
March 24	Natalie Hagan, Bushman Lab <i>"Prophages in Clostridioides difficile"</i> Carter Merenstein, Bushman Lab <i>"Prophage dynamics in the mouse gut microbiome"</i>
March 31	EPAASM 818 Monthly Meeting
April 7	Jaydeen Sewell, Shin Lab <i>"A Coxiella burnetii effector protein suppresses immune gene transcription"</i> Haider S. Manzer, Ph.D., Zackular Lab <i>"Neonatal colonization by Clostridioides difficile promotes translocation of GBS and enterococci during early life"</i>
April 14	Sam Light, Ph.D., The University of Chicago, Department of Microbiology <i>"Powering the Gut: How Microbial Bioenergetics Shape Bioactive Metabolite Production."</i>
April 21	Subham Mridha, Ph.D., Abt Lab <i>"Dissecting immune driven adaptive evolution of Clostridioides difficile within the intestinal lumen"</i>
April 28	EPAASM 819 Monthly Meeting
May 5	Jacob Cote, Pohlschroder Lab TBA
May 12	Kelsey O'Brien, John Lab TBA

SPRING 2025 Mondays 4-5PM
209 Johnson Pavilion
